PHILIP D. MURPHY

Governor

SHAWN M. LATOURETTE

Commissioner

TAHESHA L. WAY

Lt. Governor

Mr. Javier E. Laureano, Director
Water Division
U.S. Environmental Protection Agency, Region 2
290 Broadway, 24th Floor
New York, New York 10007-1866

Dear Mr. Laureano:

Attached please find the 30th Annual Report for the State of New Jersey's assumed Freshwater Wetlands Program. This report covers the period from July 1, 2022 through June 30, 2023.

If there are specific questions relating to the reports, please contact Susan Lockwood of my staff at susan.lockwood@dep.nj.gov

Sincerely,

A handwritten signature in blue ink, appearing to read "Katrina Angarone".

Katrina Angarone
Assistant Commissioner
Watershed & Land Management

**State of New Jersey
Thirtieth Annual Report to USEPA, Region II
For a State-Assumed Freshwater Wetlands Regulatory Program
(July 1, 2022-- June 30, 2023)**

The State of New Jersey, Department of Environmental Protection (Department) hereby submits this 24th annual report pursuant to the program reporting requirements of 40 CFR 233.52, and the State of New Jersey's Memorandum of Agreement (MOA), 40 CFR Part 233.13, with the Regional Administrator of the U.S. Environmental Protection Agency (USEPA), Region II. Please note that this report covers the time period from July 1, 2022 through the end of the State fiscal year, June 30, 2023, as required by the MOA.

DATA SUMMARY

Attached (**Appendix 1**) please find a database printout listing the pertinent regulatory program decisions rendered by the Department during the referenced review period. The data follows the same format as that provided in last year's report. This report provides data for applications that were decided within the reporting period.

As you recall, the Department's database tracks wetlands impacts in several categories, including "Wetlands filled (acres), Wetlands Excavated (acres), and Wetlands Cleared (acres)." Since the Federal Government only regulates wetland fill, the tables below only summarize acres of wetland filled, not acres cleared or excavated, however **Appendix 1** includes all three types of impacts. The database also provides the categories "Emergency permits, GPs and IPs; IP modification; and Open Water Fill. Finally, please note that general permit 10 is divided into two options. See Table 1 below.

Table 1

General Permit Designation	Description of General Permit
10A-Very Minor Road Crossing	100 foot crossing & ¼ acre impact OR 1/8 acre and no length limit
10B-Minor Road Crossing	No alternative with lesser impact & ¼ acre impact

The Department completed processing of a total of 825 permit applications and made decisions as shown in the following chart.

Status of Permits from July 1, 2022 – June 30, 2023

	IPs & IP Mods	GPs & Mods	SOW Fill	Emergency Permits		
				GPs	IPs	Total
# Decisions	25	737	6	3	0	771
# Permits Approved	18	669	4	3	0	694
# Permits Denied	2	2	2	0	0	6
# Applications Withdrawn/ Cancelled	5	66	0	0	0	71

*NOTE: There were also two Permit Equivalents which are permits issued for Federal agencies who are not subject to State laws.

The following table contains an evaluation of the permit issuance data and the cumulative freshwater wetland fills resulting from the 669 freshwater wetland general permits approved by the Department. The database printout is included as **Appendix 1**.

ACREAGE OF WETLANDS FILLED RESULTING FROM PERMIT ISSUANCE BY DEPARTMENT

July 1, 2022 -- June 30, 2023

Permit Type	Permits Name	# Permits Authorized	Acres Filled	Mitigation Required
GP#1	Maintenance and Repair of Existing Features	60	0.00	Not required.
GP#2	Underground Utility Lines	60	0.55	Required for permanent impacts to 0.1 acres or greater.
GP#3	Discharge of Return Water	0	0.00	Not required
GP#4	Hazardous Site Investigation and Cleanup	24	0.25	Required. Temporary impacts are restored.
GP #5	Landfill Closures	4	2.19	Required except for wetlands that formed on top of landfill.

GP#6	Non-tributary Wetlands	56	14.93	Required for impacts to waters of the U.S. only.
GP#7	Human-made Ditches or Swales in Headwaters	26	2.03	Not required
GP#8	House Additions	30	0.04	Not required
GP#9	Airport Site Line Clearance	0	0.00	Not required
GP#10A	Very Minor Road Crossings	98	1.31	Required for permanent impacts to 0.1 acres or greater.
GP#10B	Minor Road Crossings	39	1.43	
GP#11	Outfalls and Intake Structures	111	1.03	Required for permanent impacts to 0.1 acres or greater.
GP#12	Surveying and Investigating	32	0.00	Not required
GP#13	Lake Dredging	7	0.23	Not required
GP#14	Water Monitoring Devices	5	0.00	Not required
GP#15	Mosquito Control Activities	5	0.00	Not required
GP#16	Creation, Restoration and Enhancement of Habitat	22	0.00	Not required. GP#16 authorizes the enhancement of wetlands and/or habitat
GP#17	Trails and Boardwalks	24	2.32	Not required

GP 17A	Non-motorized Multiple Use Paths	6	0.03	Not required.
GP#18	Dam Repair	17	0.201	Not required
GP#19	Docks and Piers	7	0.042	Not required
GP#20	Bank Stabilization	15	0.045	Not required
GP#21	Above ground Utility Lines	11	0.00	Required for permanent impacts to 0.1 acres or greater.
GP#22	Expansion of Cranberry Growing Operations in the Pinelands	0	0.00	Requires donation of Pinelands Development Credits
GP#23	Spring Developments	0	0.00	Not required
GP#24	Malfunctioning Septic Systems	6	0.00	Not required
GP#25	Minor Channel or Stream Cleaning for Local Governments	3	0.00	Not required
GP#26	Redevelopment of Previously Disturbed Areas	1	1.0	Required for permanent impacts to 0.1 acres or greater.
GP#27	Application of Herbicide within FWW or FWTAs	0	0.00	Not required

Totals	# Authorized	Acres Filled	Mitigation Required
Cumulative General Permits	669	27.628	See Table above
Emergency General Permits	1	0.00	Not required
Individual Wetland Permits	18	15.06	Required
Individual Wetland Permit Modifications	2	0.48	Required if modification authorizes additional wetland impacts
Individual Open Water Fill Permits	4	9.73	Required
Emergency Individual Permits	0	0.00	Required
Individual Permit Extensions	4	0.00	Not required
Totals:	698	52.898	

NEW JERSEY PINELANDS COMMISSION

Under a Memorandum of Agreement between the Department and the New Jersey Pinelands Commission, the Commission conducts regulatory review of activities involving discharges of dredge or fill material within the Pinelands Area. Below is the freshwater wetland permit information for fiscal year 2023.

FY 2016 Pinelands Area NJ Freshwater Wetlands General Permit Activity

General Permit Type	Number of Permits Issued	Acreage Impacted*
10A	1	0.023
10B**	3	0.143
18	2	0.858
Total	9	1.024

* As discussed in last year’s report, the Pinelands Commission does not distinguish between “wetlands cleared”, “wetlands filled” and “wetlands excavated”. Therefore, the acres impacted include all three types of impacts.

**One of the 10B permits was a modification of an original permit issued on 9/21/21 (NJDEP File No. 0110-13-0003.1 PIN 210001). The modification increased the amount of wetland disturbance from 0.036 acres to 0.05 acres.

ENFORCEMENT

The Bureau of Coastal and Land Use Compliance and Enforcement, responsible for enforcing the State's freshwater wetlands program, reports the following activity for fiscal year 2023:

USEPA FWW data for FY15: 7/1/22 – 6/30/23	Results
Incidents reported	655
Incident Investigations conducted	333
Virtual Investigation Conducted	403
Violation documents (NOVs) issued for Incident Investigations (includes warning letters)	92
Permit Compliance Inspections	10
Violation documents (NOVs) issued for Permit Violations	8
AONOCAPAs and NOCAPAs issued	5
ACOs and JCOs finalized	5
Settlements finalized (includes SAs and Stips)	0
Penalties Assessed (includes AONOCAPA, NOCAPA, and ACOs not associated with an AONOCAPA)	\$317,077.00
Penalties Collected	\$47,813.54

DISCUSSION OF PERMIT DATA

For those General Permits (GP), under which authorizations during the review period resulted in greater than five (5) acres of cumulative impacts, a more detailed description and discussion, is provided below:

General Permit #6 –This GP allows destruction of up to one acre of wetlands and waters that are not part of a surface water tributary system, and not waters of the United States, as previously defined by the Federal government. In waters of the U.S., the permit is limited to ½ acre of wetland or open water fill. The GP cannot be used for wetlands of exceptional resource value or USEPA Priority Wetlands.

Applicants are required to provide a site plan depicting proposed activities because the rules prohibit use of the permit solely for the purpose of eliminating a natural resource in order to avoid future regulation. However, it is still one of the most commonly issued GPs, since if the wetland/open water resource meets the non-surface water connection requirement, any type of development may be authorized. The Department considers connections such as storm water pipe systems to be a surface water connection and therefore ineligible for this general permit.

The Freshwater Wetland rules were amended to require mitigation for certain general permits received on or after November 2, 2009. General permit #6 now requires mitigation for permanent impacts to 0.1 acres or more of wetlands or waters that are also waters of the United States.

The Department approved 56 general permit #6 applications for a cumulative fill of 14.93 acres. None of these permits with impacts greater than 0.1 acres was found to be waters of the United States and therefore did not require mitigation.

MITIGATION

The Freshwater Wetlands Act and Rules allow the Department to authorize permits with standard conditions requiring an acceptable mitigation proposal before the start of regulated activities. Therefore, the Department's permitting impacts data and mitigation data do not align within any single reporting period. Some applicants delay the required submittal of a mitigation proposal until such time that they are ready to undertake their project which is why many projects do not have an approved mitigation option at the time the permit is obtained. As a result, the reviews conducted by the Mitigation Unit frequently include the review of mitigation projects intended to satisfy approved permits that may have been included in previous reports to EPA and may not include reviews of mitigation for permits contained on the current annual report. Regardless, the Department, with the help of EPA grant funding has been improving its tracking system for mitigation so that the Department can better report on its mitigation efforts.

During the reporting period, the Department's Mitigation Unit has been involved in 47 freshwater wetland mitigation reviews. There were several permits issued that authorized permanent wetland impacts greater than 1.5 acres. Each of those projects is described below:

File Number/Name Twp/County	Impact (acres)	Type of Impact	Mitigation Option
1818-10-0001.3 Somerville Boro SRF Somerville/Somerset	2.19	Wetlands formed on top of landfill	No mitigation required.
1211-16-0001.4 NJDEP/Middlesex Boro Middlesex Boro/Middlesex	10.43	This permit authorizes the Green Brook Flood Risk Management Project known as Segment C2, Contract 2 and Segment 2, Contract H. This permit authorizes the construction of structural flood protection along the north/northwest and south/southeast banks of Bound Brook	Bank credits purchased.
0000-21-0008.2 Orsted Ocean Wind Various/Atlantic County	6.535	This is the construction of Ocean Wind 1's offshore wind farm off the coast of New Jersey. The portions of the overall project authorized under this permit include installation of three - 275 kV electric transmission cables including their onshore installation.	Bank credits pending purchase.
1704-02-0001.1 PSE&G Lower Alloways Creek/Salem	2.16	The project involves the development of the New Jersey Wind Port ("NJWP"), a port and manufacturing facility at the Salem and Hope Creek Generating Station on Artificial Island in Lower Alloways Creek Township, Salem County,	Bank credits pending purchase..

0200-03-0007.4 Army Corps Maywood/Bergen	2.78	Environmental Cleanup-Temporary	Restoration onsite
0205-07-0002.7 Transco Carlstadt/Bergen	6.93	Environmental Cleanup-Temporary	Restoration onsite
0500-03-0005.2 Atlantic City Electric Ocean City/Cape May	9.95	Environmental Cleanup mainly in Transition Area-Temporary	Restoration onsite.
0000-18-0038.2 PSE&G Roseland/Essex	6.70	Utility line clearing	Offsite mitigation approved to replace lost forested resources
0400-22-0001.1 Camden County MUA Haddon Township/Camden	1.91	Project withdrawn	Withdrawn
1210-13-0001.3 Gulton Industries Metuchen/Middlesex	6.30	Environmental Cleanup-Temporary	Restoration onsite
0102-05-0001.1 M&M Resorts Interntl Atlantic City/Atlantic	3.43	Housing Development	No Mitigation has yet been identified.
1225-16-0005.2 PSE&G Sewaren/Middlesex	2.75	Reconfiguration of utility line ROW	Restoration onsite
0906-14-0010.2 NJ Transit Hoboken Terminal\ Hoboken/Hudson	3.55	Fill of Long Slip Canal for the Hudson/Bergen Rail Line	Bank credits purchased.

Additional Mitigation Information

During the reporting period, the Mitigation Unit completed mitigation reviews for permits resulting in the following wetland impacts. Not all permits require mitigation as the rules allow for some minor disturbance under certain General Permit authorizations. Therefore, these impacts will not align with the impacts reported elsewhere for current permitting.

PERMIT IMPACTS Reviewed in 2023 reporting period (for projects which require mitigation)

	Palustrine Emergent (ac)	Palustrine Scrub/Shrub (ac)	Palustrine Forested (ac)	State Open Water (ac)	Total (ac)
Excavated	0.66	0.00	0.25	0.07	0.98
Filled	8.14	4.17	14.01	7.05	33.37
Temporary	22.2	2.75	8.75	4.77	38.47
Total	31	6.92	23.01	11.89	72.82

It is important to note that while the impacts have been recorded in the table above for all projects reviewed, if there was no plan included with the permit application, the applicant received a conditional approval requiring the applicant to provide a mitigation proposal. Therefore, there are no mitigation numbers to report until such time that a plan is received and approved.

The following summary tracks only mitigation for which plans have been approved and which are in various stages of completion. The “amount required” reflects the amount that the Department determined was necessary based upon the proposed mitigation method. For example, if an applicant proposes to do a restoration mitigation, then the amount required would reflect the Department’s requirement to provide two acres for each one acre of impact; for enhancement anywhere from 3 to 10 times the area of impact; and for preservation, the amount required would reflect the Department’s requirement to provide 27 acres for each acre of impact. The data for this time period is as follows:

APPROVED MITIGATION in 2023 reporting period

Type of Wetlands to be Mitigated	Amount required (acres)	Amount Completed (acres)	Amount Pending (acres)
Palustrine Emergent	142.70	31.31	111.39
Palustrine Forested	217.80	40.71	177.09
Palustrine Scrub Shrub	27.77	1.58	26.19
State Open Waters	27.72	19.31	8.41
Totals	415.99	92.91	323.08

Finally, the Department is providing one additional, new table. The following table shows the projects that were completed in their entirety and closed out during the reporting period.

MITIGATION COMPLETED in 2023 reporting period

Type of Wetlands that were Mitigated	Amount required (acres)	Amount Completed (acres)	Amount Pending (acres)
Palustrine Emergent	71.445	71.322	0.123*
Palustrine Forested	174.515	174.515	0
Palustrine Scrub Shrub	5.074	5.074	0
State Open Waters	49.389	49.389	0
Totals	300.423	300.30	0.123*

*These are temporary impacts that have not been completely restored as part of a pipeline project. All permanent impacts were mitigated which is why it appears on this list.

Mitigation Banks

While several banks have been submitted during the reporting period, none has progressed to the stage of either conceptual or final approval.

Bank Name	Location <i>Twp./County</i>	Service Area <i>WMA</i>	Acres in Bank	Number of Credits
None.				

In-Lieu Fee

The Freshwater Wetland Mitigation Council administers the State's in lieu fee program. During the reporting period, the Council made the following final decisions:

Thirty one monetary contributions were deposited during this reporting period, in accordance with the Council's resolution accepting monetary contributions for Intertidal/Subtidal impacts under the State's Coastal Zone Management Program. They are as follows:

Water Region	Amount	Date Received	Permit Number	Balance	Total Impact	Credits Remaining
Atlantic				\$1,057,455.22		
	\$6,802.80	7/6/2022	0508-22-0004.1 (ISS)		0.00068	40.67222
	\$12,365.57	7/6/2022	0508-13-0017.1 (ISS)		0.00198	40.67024

\$13181.41	7/17/2022	1531-22-0002.1 (ISS)	0.0025	40.66774
\$3,383.27	7/1/2022	0508-22-0011.1 (ISS)	0.0005	40.66724
\$12,456.00	8/18/2022	1509-02-0014.1 (ISS)	0.002	40.66524
\$12,589.03	8/22/2022	0509-22-0003.1 (ISS)	0.0015	40.66374
\$6,198.58	9/7/2022	0510-01-1008.1 (ISS)	0.0007	40.66304
\$891.25	8/31/2022	0506-09-0038.1 (ISS)	0.0002	40.66284
\$23,678.92	9/29/2022	0501-04-0021.1 (ISS)	0.002	40.66084
\$12,696.33	11/1/2022	0508-09-0020.2 (ISS)	0.0013	40.65954
\$9,542.84	10/25/2022	0508-09-0064.1 (ISS)	0.0011	40.65844
\$5,741.76	10/25/2022	0508-22-0022.1 (ISS)	0.0007	40.65774
\$953.08	11/14/2022	0501-09-0007.1 (ISS)	0.0001	40.65764

	\$2,167.65		0506-02-0022.5 (ISS)		0.0007	
	\$12,220.80					
	\$46,153.09		0510-22-0006.1 (ISS)		0.0033	
Raritan	N/A	N/A	N/A	\$847,407.80	2.09 0.212	12.542
Northwest	N/A	N/A	N/A	N/A	N/A	0
Lower Delaware	N/A	N/A	N/A	N/A	N/A	13.141
Northeast	\$30,000.00	7/29/2019	0243-13-0001.1	\$30,000.00	0.1	30.64
Total				\$1,934,863.02		

Please note that these contributions are for projects occurring in tidal waters since the ILF includes tidal wetlands. The Mitigation Council has an outstanding RFP for this Water Region but has yet to review or approve any grants.

Additionally, three proposed contributions came to the Mitigation Council for consideration. They were:

1. Guiliano: This application was rejected. The Council received a request for an applicant to make a monetary contribution of \$5,000 for 0.09 acres of emergent freshwater wetland disturbance in WMA 13 on Block 178, Lot 8 of Ocean Township, Ocean County. The applicant had exhausted all other mitigation options. They planned on donating a 0.35-acre undeveloped lot in Berkley Township along with the \$5,000 monetary contribution. The donation amount was based on the single family contribution. The Council rejected it for several reasons including: the single family contribution number is for general permits and the applicant received an Individual permit; the property was purchased in 2020 with full knowledge that it contained wetlands; and

the purchase price for the property was \$25,000 for a 0.25 acre lot, indicating that the land had limited development potential. The Council rejected the contribution amount.

2. The Joint Meeting of Essex and Union Counties, NJDEP File # 2004-02-0004.3. The Council accepted this contribution. This is a sewage treatment plant. The applicant asked to make a monetary contribution in the amount of \$70,575.00 for 0.04 acres of permanent freshwater wetland disturbance and 0.03 acres of Intertidal Subtidal Shallows (ISS) in WMA 7 located on Block 4, Lots: 43, 44, 46, 1435 A, & 1435 B; and Block: 2, Lots: 866 C, 866 D, & 866 E of Elizabeth City, Union County. There are no mitigation banks in WMA 7. The applicant recounted that purchasing mitigation credits, conducting an onsite project, preserving land, and donating land were all not feasible for the project type. The disturbance will be caused by the construction of a concrete floodwall, pedestrian and vehicle flood gates, an access drive, and a stormwater pumping site. Additionally, the opportunities to conduct mitigation in this WMA is often limited by the presence of contamination.

3. Carteret Ferry Terminal, NJDEP File # 1201-08-0001.1. The Council accepted this contribution. This is an expansion of a ferry terminal being conducted by the Borough of Carteret. The Borough of Carteret asked to make a monetary contribution in the amount of \$403,141.50 for 0.45 acres of permanent Intertidal Subtidal Shallows (ISS) in WMA 7 located on Block(s) & Lot(s): [201, 1.02] [304, 2.01] [304, 2.02] [5.01, 1.01] [5.02, 2.01] in Carteret Borough, Middlesex County. There are no mitigation banks in WMA 7. The applicant recounted that purchasing mitigation credits, conducting an onsite project, preserving land, and donating land were all too costly or not feasible for the project type. Additionally, the opportunities to conduct mitigation in this WMA is often limited by the presence of contamination.

Data

The Department is providing the following data reports upon which the mitigation provisions of this report were based:

1. A printout of all mitigation projects receiving either preliminary or final sign off during the reporting period. "Mitigation Approved" are all projects that were reviewed during the reporting period and that either received conditions requiring the submittal of a mitigation proposal (the PENDING projects) **and** projects for which a mitigation plan has been approved (the APPROVED projects).
2. "Approve Mitigation Plan" projects are those for which a mitigation proposal has been provided and approved and which are now being tracked via the submittal of monitoring reports; and those which are completed in their entirety.

The key to the "Approve Mitigation Plan" is as follows:

- "File number" is file number;
- "Facility Name" is applicant name;

“Amount required” is the amount of mitigation required based upon the type of mitigation proposed. For example, if the proposed mitigation option is creation, the amount required will be twice the area of impact; if the proposed option is preservation, the amount required will be 27 times the area of impact; if the proposed option is credit purchase, the amount required will equal the wetland impact;

“Amount proposed” is the amount the applicant proposes to create, enhance, etc. in an approved mitigation plan;

“Amount completed” is the amount that has been field verified when the project has completed the 5-year (or longer) monitoring period;

“Mitigation Information Method” is the type of mitigation that is being provided;

“Name of Bank” is the name of a bank in the service area that is used to satisfy the mitigation requirement.

3. “Mitigation Complete” projects are those for which all requirements have been met, the project is complete in its entirety and has been closed.

4. Summary of ILP Payments received; and

5. A list of State and Federal/State combined mitigation banks with freshwater wetland credits.

All mitigation documentation is included as **Appendix 2**.

OTHER INITIATIVES

The wetland impacts the Division authorizes only account for a fraction of the wetlands on a particular property. Likewise, many of our permits result in conservation restrictions that preserve wetlands in perpetuity. The Department’s data base (NJEMS) has been modified to track these positive changes. Wetlands left undisturbed and/or preserved have also been identified as a performance metric of the Division. For this reporting period the Department provides the following information:

Freshwater Wetlands preserved permanently = 129.942 acres. These sites have conservation restrictions associated with approvals such as transition area averaging plans that include wetlands; and

Freshwater Wetlands avoided = 889.760 acres (wetlands that are unaffected on development sites for which we have approved permits).

COORDINATION WITH OTHER AGENCIES

As required pursuant to our assumption agreement, the Department coordinates with the State Historic Preservation Office (SHPO) (an agency located within the Department of Environmental Protection), the U.S. Fish and Wildlife Service, and your Agency.

State Historic Preservation Office

In accordance with our Memorandum of Understanding, the Department screens incoming applications for categories of activities that "may affect properties which are listed, or are eligible for listing, on the New Jersey or National Register of Historic Places" (See N.J.A.C. 7:7A-12.2(l)). However, in the October 2008 amendments to the rules, applicants are required to do a preliminary assessment of their projects and those proposing projects having a high probability of the presence of historic and archaeological resources, in accordance with the Department's criteria are required to submit a Phase IA historical and archaeological survey and an architectural survey with their initial application to the Department. This enables the Department to forward the application with the initial survey to SHPO for review and comment. A permit cannot be issued "unless the applicant demonstrates to the Department that the proposed activity avoids or minimizes impacts to the maximum extent practicable or the Department determines that any impact to the affected property would not impact the property's ability to continue to meet the criteria for listing ...or otherwise negatively impact the integrity of the property or the characteristics of the property that led to the determination of listing or eligibility." (See N.J.A.C. 7:7A-4.3(b)5) The State Historic Preservation Office completed a total of 425 reviews. A summary of these reviews is located in **Appendix 4**.

Endangered Species Issues

The Department's review of permit applications under the Freshwater Wetlands Protection Act includes a review for potential impacts to both Federal and State-listed threatened and endangered species; 752 projects were reviewed, and 36 field inspections were conducted. As a result of these reviews, 168 sites were classified as wetlands of exceptional resource value* due to the presence of State or Federally listed species or associated habitat. Of the 168 exceptional resource value classifications, 74+/- classifications were related to Federally-listed species (sturgeon, piping plover and red knot are not included in exceptional resource value classifications). Specifically, the following classifications/wetland related determinations were made:

4 sites for bog turtle (*Clemmys muhlenbergii*)

6 sites for Swamp pink (*Helonias bullata*)

24 sites for Indiana bat (*Myotis sodalis*)

40 sites for Northern Long-eared Bat (*Myotis septentrionalis*)

1 site for Piping plover (*Charadrius melodus*)

1 site for Red Knot (*Calidris canutus*)

6 sites for Shortnose Sturgeon (*Acipenser brevirostrum*)

6 sites for Atlantic Sturgeon (*Acipenser oxyrinchus oxyrinchus*)

*Designation of wetlands as exceptional resource value under the State program reflects the highest classification and affords such resources the greatest degree of protection under the Freshwater Wetlands Protection Act. Similarly, certain limitations and restrictions apply within and around such wetlands, and specific types of proposed activities -- which might otherwise qualify for authorization under applicable general permits -- cannot be authorized if proposed within wetlands of exceptional resource value or their associated transition area.

U.S. Fish and Wildlife Service

As required pursuant to the Department's Memorandum of Understanding with the U.S. Fish and Wildlife Service, upon receipt, those applications for certain general permits in townships that have Federally-listed endangered or threatened species are sent to the U.S. Fish and Wildlife Service for review. The Service makes a finding of "no potential to affect" or "potential to affect" endangered or threatened species. For those with no potential to affect, the Department is free to complete processing of the application and approve or deny it as appropriate. For those with the potential to affect endangered or threatened species, as determined by the U.S. Fish and Wildlife Service, the Department works with the Service to satisfy their concerns by either working with the applicant to amend a project, attaching conditions to a permit, denying a permit or elevating the Service's concerns to USEPA for consideration and resolution.

Since the Service began experiencing severe staffing reductions that made it more difficult for them to fulfill their mandate, the Department agreed to modify its coordination process with the Service by undertaking pre-screening of applications with the goal of narrowing the number of projects circulated to the Service to those with species onsite or within a specific vicinity. The Department reviewed 25 projects for potential impacts to Federally-listed threatened or endangered species. The database printout in **Appendix 3** show the results of the Service coordination on those applications that were completed during this timeframe. Please note that in accordance with the current agreement with the Service, the Department can attach certain conditions relating to endangered and threatened species without the need for direct Service review.

Status of wetland permitting in the Highlands Preservation Area

The Highlands Water Protection and Planning Act (Highlands Act) (N.J.S.A. 13:20-1 et seq.) establishes more stringent permitting for a region in the northern portion of the State. As stated in our last report, the Highlands Act has modified the administration of the State's wetland

program in the Preservation area of the Highlands region by making it more difficult to obtain permits for impacts to Highlands open waters, which include wetlands. The Highlands Act prohibits all but linear impacts to Highlands open waters. Further, by regulation, all wetland impacts in the Highlands preservation area require mitigation.

The Department issued Highlands Preservation Area Approvals for a total of two projects. Both were Highlands General Permits 1 for habitat enhancement activities.

1438-21-0004.2 was issued to Anglers Anonymous for work in Washington Township, Morris County. There were temporary impacts to remove invasive species from the wetlands.

1615-22-0007.1 was issued to the Land Conservancy for work in West Milford, in Passaic County for removal of a currently breached weir to restore the onsite channel to its natural condition, bank stabilization of the restored channel, tree/shrub establishment, wildlife habitat plantings, brush management, and prescribed burns to control invasive species.

There were no wetlands filled in the Highlands Preservation Area that were associated with the general permit, during the reporting period. Data from permitting that occurred in the Highlands preservation area under the Highlands Act is presented in **Appendix 5**.

OTHER SIGNIFICANT ISSUES

The Department adopted its Inland Flood Protection rule amendments in July 2023. However, the remainder of the rules that are part of the Protection Against Climate Threats (PACT) that will include changes to the Freshwater Wetland rules has not moved forward as of this date.
