

**Biological and Conference Opinion on the Registration of Malathion
Pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act
February 28, 2022**

APPENDICES

Appendix A – Supporting Information for Consultation

- A-A. 2016 June Stakeholder Workshop Break Out Group Charge
- A-B. Commitment Letters
- A-C. General Measures – Summary of Label Changes
- A-D. Species-Specific Measures
- A-E. Confirmation of Revised Description of the Action

Appendix B – Supporting Tables for Concurrence Section of Consultation and Species Removed from Further Consideration

Appendix C – Status of the Species and Critical Habitat

Appendix D – MagTool Manual

Appendix E – Toxicological Data from the Malathion Biological Evaluation

Appendix F – Malathion Seasonal Effects Analysis

Appendix G – The Environmental Protection Agency’s Revised National and State Use and Usage Summary (SUUM) for Malathion

Appendix H – FIFRA Endangered Species Task Force (FESTF) Interim Report on the State Department of Agriculture Pesticide Use and Usage Survey

Appendix I – MagTool and R-Plot Comparison for Malathion

Appendix J – Integration and Synthesis Worksheet Templates

Appendix K – Integration and Synthesis Summaries

K-A. Animal Integration and Synthesis Summaries (Continental United States [CONUS])

- K-A1. Amphibians: Integration and Synthesis Summaries
- K-A2. Arachnids: Integration and Synthesis Summaries
- K-A3. Birds: Integration and Synthesis Summaries
- K-A4. Bivalves (Clams, Mussels): Integration and Synthesis Summaries
 - K-A4-1. Bivalves Subset 2: Use and Usage

K-A5. Crustaceans: Integration and Synthesis Summaries

K-A6. Fishes: Integration and Synthesis Summaries

K-A6-1. Fishes Subset 2: Use and Usage

K-A7. Insects: Integration and Synthesis Summaries

K-A8. Mammals: Integration and Synthesis Summaries

K-A9. Reptiles: Integration and Synthesis Summaries

K-A10. Snails: Integration and Synthesis Summaries

K-B. Plant Integration and Synthesis Summaries (CONUS)

K-B1. Lichens (Group 1)

K-B2. Ferns and Allies (Group 2)

K-B3. Conifers and Cycads (Group 3)

K-B4. Monocots, Abiotic Pollination vectors (Group 4)

K-B5. Monocots, Outcrossers with Biotic Pollination vectors (Group 5)

K-B6. Monocots, Biotic Pollination vectors; asexual reproduction or self-fertilization (Group 6)

K-B7. Monocots, Biotic Pollination vectors; other reproductive mechanisms unknown (Group 7)

K-B8. Dicots, Abiotic Pollination vectors (Group 8)

K-B9. Dicots, Outcrossers with Biotic Pollination vectors (Group 9)

K-B10. Dicots, Biotic Pollination vectors; asexual reproduction or self-fertilization (Group 10)

K-B11. Dicots, Biotic Pollination vectors, other reproductive mechanisms unknown (Group 11)

K-C. Caribbean Island Integration and Synthesis Summaries

K-C1. Animals: Caribbean Island Integration and Synthesis Summaries

K-C2. Plants: Caribbean Island Plant Integration and Synthesis Summaries

K-D. Hawaii and Pacific Island Integration and Synthesis Summaries

K-D1. Animals: Hawaii and Pacific Island Integration and Synthesis Summaries

K-D2. Plants: Hawaii and Pacific Island Integration and Synthesis Summaries

K-E. Anticipated Incidental Take for Species

Appendix L – Critical Habitat Determinations and Rationales

L-A. Animals: Critical Habitat Determinations and Rationales

L-B. Plants: Critical Habitat Determinations and Rationales

L-C. Dichotomous Key for Critical Habitat

Appendix M – Effects – MagTool and R-Plots

M-A. Output from MagTool Runs

M-B. R-Plots and Summary Tables of Effects Data by Taxonomic Group
